

PRAGUE INTERCUP

International Arabian Horse Show

Dear Participants, Dear Guests

We are very happy about your participation at our international Arabian Horse show Prague Intercup. With your participation we feel responsible for your safety during your stay with us. Thus we would like to share several informations regarding your arrival to the Czech Republic and your stay at the show ground.

All conditions for traveling are rapidly changing, which makes it very difficult to know which exact restrictions will be valid at the time of your arrival and your departure, but here are several basic informations which should be valid all the time:

- **online form** - it is necessary, **for everyone**, to fill up the online form before arrival to the Czech Republic. The QR code, which will be generated by this form, might already be checked at the airport of your departure. Without the QR code, there might be problems to enter the plane. The form should also be filled in case of arrival by car. You will find the link to the form here: <https://plf.uzis.cz>

- the easiest arrival is for those with the **proof of full vaccination** by any EU approved vaccine. Also a proof of recovery from COVID-19 infection is valid, but should not exceed 180 days. Everyone who fulfills one of these two criteria and comes from **ANY** country, **does not have to go through any quarantine**.

- everyone, without these proofs, needs to follow all current conditions depending on their country of departure. Travelers (by public transport) from **Green and Orange** countries should have a negative test result on Covid-19 not older than 48 hours before departure (no quarantine needed). Travellers (by public transport) from **Red, Dark Red and Black countries** must have a negative test result on Covid -19 (not older than 48 hours before departure) and **must undergo** a minimum of 5 days quarantine, which ends by a new negative test result for Covid-19. Travellers by individual transportation (car) have to follow only after-arrival conditions (quarantine) + arrival form.

- Updated map valid for arrivals to the Czech Republic are found here: <https://koronavirus.mzcr.cz/seznam-zemi-podle-miry-rizika-nakazy/>

- everyone who needs a **Covid-19 test result for their trip back home**, should inform us in time, to be able to plan your testing in accordance with your departure time.

- at the show ground all necessary safety features will be followed.

We are at your disposal in case of any other queries from your side.
